## Customer Reviews

Have read most of the trivia questions, trivia madness books and random facts books on , and this one by now is one of the best IÃ¢ÂÂve seen. I hope this wonÃ¢ÂÂt relax the author and she

will put the same efforts making the series even better. That's actually a huge collection, and it was really entertaining, quite thrilling and undoubtedly a pleasant read.

There are really 1000 facts, no doubt about this. They all have numbers, so the author is not cheating. I found most of the facts new for myself. Some of them do impress, the others don't, the third ones are just crazy and shocking. So you really can find a load of random stuff here. I think it's just what most of people would expect from the book like this. At least, it was like this in my case.

I am a fact of facts so this type of book is something I adore. Among the other random facts books, this one so far is one of the greatest choices. I hope this author won't stop and will make a series of such high-quality fact books.

Of course if you are a big fan of facts, I bet you already know some of the tricky things, trivia, and facts mentioned. I already knew some of the things. But most of the other things were great discoveries. Lovely book.

Main topics of this random facts book are: animals, countries, planet, USA, inventions, celebrities, world web, food, history. Really a lot of different things bombarding my brain. The book even forced me to search on youtube how the python eats the alligator. If you haven't seen it, you've missed something extraordinary. This made me feel the author is really avoiding BS here. Excellent stuff for that price.

This book was very entertaining. It contains a lot of random facts that you wouldn't thought were true. definitely recommend to everyone who wants to learn about things.

Facts book is not something new for me. I've already read a couple of similar books before. So far, this one was the best book of facts for me. First, it provides 1000 of facts and they are all numbered so there is no trick here. Second, all facts are unique. No repeating. Third, the book is proofread well. It's a pleasure to read it. Fourth, most of the facts were really new and intriguing. Excellent book!

For this price, you cannot find anything like this. At least I couldn't. This book provides some

compelling and outstanding facts. I was totally delighted. I had a feeling this book was not made for a quick buck and the author has really put her soul into this work.
