Customer Reviews

The world-class math program comes to you from the country of Singapore. Learning math with interesting lessons.

Math in Focus is a great choice if you plan to do manipulatives or plan to teach your child in a one-on-one tutor style. We used this for homeschool this year and I thought it was great at first, but then realized that it has a lot of graphics that were very distracting and not a lot of explanation. The many examples were wonderful, but there is very little explanation of the concept itself.

Good Material, plenty of practice problems.

Awesome price. The book was as described and the shipping was fast!

This text is in an easy to understand format. The teacher editions are expensive but other wise it is a great curriculum.

Great product!!

Book

Thx

Item as described; Fast shipping
