Age Range: Baby and up

Grade Level: Preschool - Kindergarten

Customer Reviews

Used in classroom

Easy to make and use. Everything you need is included. Colorful and appealing to children. I used colored 9x12 envelopes instead go folders or bags.

Easy to make and use. Everything you need is included. Colorful and appealing to children. I used colored 9x12 envelopes instead go folders or bags.

Great ideas for stations

These are great phonics learning centers to make for your classroom. They are already colored, you just have to tear out, laminate, and cut them out. Cute illustrations make these fun to use in the classroom without the students thinking they are doing "work". I would recommend them to anyone!

It was so easy and fun making these centers. My first-grade students love doing them, and I love that they are able to work independently while allowing me the opportunity to do small-group instruction!

There's a ton of laminating & cutting involved with these but they're worth the effort. My kindergarten class loves them when they use them as independent work centers.

I have used these books in my classroom for a while. I bought this one for my ESOL classroom and for my son. I always get the pages laminated so that they will last.
