Customer Reviews

If you are a physician or in healthcare management, billing, or coding, You MUST buy this book. Everything you need to know, in a nice spiral binding because you will be using this A LOT. You really can't beat the AMA for giving you accurate and current information. Honestly, I'm not that excited about ICD-10, but what can we do? Just be prepared, that's all.

This is an awesome book. The Index is gray, kind of drab, but it is a draft. I tabbed mine right away. The Tabulars are colored and wonderful. It is a blessing to have my own copy for my college classes. Any one taking cetifications will need this book by June 1st.so order today. It is much needed to all coders And MIBC students.

What I needed for my course.

Came as described. Would recommend to others.

A must have for any medical office.

Accurate, but took WAY to long to ship.

Great preparation for upcoming changes

Great for our application
