Customer Reviews

Isobel Lundie graduated from Kingston University in England, where she studied illustration and animation. She is particularly interested in how exciting, colorful, and distinctive artwork can transform stories for children.

I docked a star only because of some letters/numbers being too hard to read. Also some numbers/letters aren't within the correct lines so can make it even harder. Apart from that, beautiful pictures. I love that there are so many pages to color too!

Numbers are so small and faint to be legible and I have 20/20 vision!! No more of these"....

No mystery you can tell what the picture is. Cannot tear out the pages.

Worst coloring book ever! If you match the colors to the numbers as requested your finished product looks terrible compared to the answers in the back of the book. Some numbers are missing and some blocks have more than one number! Terrible!

Very nice quality book, was surprised actually when it arrived. Was expecting a simple coloring book, but this book has a very durable cover, and very nice quality of paper. Very easy to understand, and color by number. Also has beautiful works of art to color!

The pictures use too many of the same colors. Not enough contrast. There were maybe 4 of the 46 pictures even worth the time to color.

You can still see the numbers when you color however the book is fun

Very nice
