Diane Ahlquist is an author, speaker, and third-generation intuitive who has used her gifts in counseling for over 25 years. She is the author of The Complete Idiot’s Guide to Life After Death, The Complete Idiot’s Guide to Fortune Telling, and Moon Spells: How to Use the Phases of the Moon to Get What You Want.

I think the average person would assume that the title of this book is only about how to find love or a mate. Lol, one person picked it up out of curiosity and said "ARE YOU SERIOUS?" After I explained it she understood the concept. The complete idiots guide to the law of attraction can change your life. It's very positive and very simple. If you're privy to this kind of stuff you're enlightened and blessed. But in case you didn't know or believe it the power of your thoughts are amazing. I used to be a pessimist before I learned about this way of thinking (not talking about this book, I mean before

I learned about spirituality, gratitude, cause & effect), etc... I used to think it was better to expect a negative outcome when you wanted something, that way if the outcome was negative, you wouldn't be disappointed. I was completely unaware of the benefits of thinking positively. It arrived in excellent like new condition.

If you are interested in the Law of Attraction and what it is, this is a great book. If you read *The Secret*, this is a much more in-depth yet simple explanation of what is going on and how to utilize the natural laws of the universe to help you reach your full potential. The Law of Attraction has existed in many incarnations through philosophy for thousands of years. Of course, if you don't believe in this, then this book will probably just annoy you, it probably won't convert you into a believer.

Such a great book on the Law of Attraction. Diane writes it in a clear way, making it easy to understand the concepts as well as in a practical way, making it relatable to the reader and real life! It was my first Law of Attraction book and helped me to collect the ideas that I've had about it before and put it into a more defined channel. I am very impressed with this book and I really feel positive with this thinking!

I have to say I really enjoyed reading this book! She gave a lot of good examples of what happens when you put all your attention or focus on any situation, which will result in you getting what you focus on. Everything is made up of energy, so if you focus on your energy on everything that is going wrong in your life, then that is what you're going to get. If you don't like that, well change your thinking, find something to be grateful that is in your life. The more you're grateful for something. You will attract more things to be grateful for, this not an overnight thing. It will take time. However, most people don't have the patience, persistence and determination to keep going and just give up right before their desires were going to be delivered. I could relate to some of her stories, even though some of them were made up. I liked how she talked about how if you don't like someone at work that seems to get everything, everyone likes them, or if you're angry or resentful, you're adding energy to their success. Basically, you're helping them achieve more success because of your focus of anger or resentment towards them when instead you should be focusing on your goals, desires. I highly recommend this book if you just want to get down to meat of how things work with the Law of Attraction and want steps on how attracting things in your life.

Good

I have several copies of this book. I used to be Corrections Officer and I always recommended this book to the inmates. It is an easy read with tons of awesome info to help you in your life of struggles and if you believe in karma then you will want to read this book and pay it forward!! I can't say enough about this book. I try to reread it every once in a while so to keep the info fresh. With life comes stress and with stress comes disease...read the book!!

This book is based on the idea of positive thinking but goes further by admonishing one to avoid negative thoughts. The mind ;is the beginning of everything, consider that every invention of mankind, physical, political or medical, starated as someone's thought.Like breeds like, consider The ;Book of Job," what I feared has come upon me."

If you're into the Law of Attraction you know you got to keep reminding yourself, always refreshing your thoughts and beliefs. I have a few books on it. I go back and forth etc...then I found this.I decided to give it a try and it's perfect!!It's an easy read, straight up, right on point!
