Customer Reviews

Thank you. This book came in very good condition. Arrived on time. I home school my son and it's very often I will order books that say they are a certain date of copywriter and they aren't. Which means my teachers edition isn't the same wording as my students edition. It would be worthless. But this was just as described. For all the homeschool mom's out there that make their own curriculum, check the copywrite dates!! I would recommend this company thank you.

This was ordered for my daughter in high school. She loved having the book at home because she did not have to carry a book home from school. At the end of the school year we donated the book to her school and the teacher was thrilled to have one more book for students.

Excellent condition.

Better than the used \$80 one we bought through the high school recommended website.

This is one of the better Science textbook I have seen recently. A lot of good teacher notes in the margins.

This text book for a science class offer good explanations and beautiful images of each section. It's a great resource at the class room for my daughter.

Perfect!!!

Was satisfied with my purchase.
