Customer Reviews

Hope Egan is giving us "Christians" what we have needed for centuries - TRUTH ABOUT GOD'S PLAN FOR OUR HEALTH- EAT CLEAN!! There are so many people that I want to share this book with and its all in the Bible-the book we all have been carrying around for most of our lives and never really reading it. Read your Bible people! The truth is right under your nose!

Very well written. Very helpful for anyone wanting to studying what Scripture has to say about what

we eat.

This is a great book that is so easy to understand. It's perfect for anyone just beginning to look at the kosher laws and what the "New Testament" really has to say about the subject. Get ready to think outside the box.

Holy Cow explained very clearly why the laws, especially dietary, given to the Jewish nation in the Old Testament not only set them apart as God's people but were, in fact, good for them and why we should obey them even today.

Great informative book. God does care what we eat and about our health as He directs us in the Bible!

Very revealing, and answers a lot of questions that people have about what should be considered food and what was created for other purposes

Great book by Hope Egan that clearly uses Scripture to show that GOD did NOT change his view on what he designed people to eat. We're all taught that 'Jesus declared all foods clean', but did you know that not everything you are taught is accurate?! Follow Hope through a CLEAR exposition of Scripture that a 10 year old can follow, and let the Scriptures speak for themselves. If you can approach this with a true desire to know what the Scriptures say, and be willing to accept that what your Pastor (who probably doesn't know any better) says, then you'll see the Truth of the matter, and understand what the One who created you and me has to say on the matter - for today!

Love this book. For an open minded Christian, this is food for thought. Bought it to give to a friend.
