Comparative Politics In Transition, 7th Edition

Synopsis

Everyone can be politically savvy. McCormick's *COMPARATIVE POLITICS IN TRANSITION* takes a story-based approach to explain concepts and terms clearly. Because the Seventh Edition is up-to-date and accurate, you will gain a real understanding of international politics around the world, from Africa to the Middle East to Latin America. McCormick emphasizes the non-Western world and explores the political influence of Islam and Iran.

Customer Reviews

"I like the approach. The author effectively lays out a structure for dealing with major concepts and themes as applied to the individual country case studies...His brief treatment of country history (political development) and attention given to political culture is especially appreciated. His treatment of major features of the political structure and processes is sufficiently to-the-point yet also adequately detailed...I appreciate pretty much all aspects of this text. I have used it a number of times previously in comparative government courses, and it is been quite well received by our American government students who have come to appreciate the value of a comparative approach." "The strength of the book is its clear prose...The approach is solid; I like the case studies and the breakdown into different typologies (liberal democracies, etc.)."

John McCormick is Jean Monnet Professor of European Union Politics at Indiana University Purdue University Indianapolis (IUPUI). He was educated at Rhodes University (South Africa), the

University of London, and Indiana University, and has been a visiting professor at Exeter University and the University of Sussex in Britain, and at the College of Europe in Bruges, Belgium. He has lived in, traveled to, or undertaken research in nearly 40 countries in North and Central America, Europe, Southeast Africa, and Southeast Asia. Before completing his Ph.D. in political science, he worked in the public sector for two environmental interest groups and was a consultant for a number of specialized agencies of the United Nations, including FAO and the UN Environment Program. His teaching and research interests lie in comparative politics and public policy, with particular interests in environmental policy, British politics, and the politics of the European Union. His other publications include EUROPEAN UNION POLITICS (Palgrave Macmillan, 2011), EUROPEANISM (Oxford University Press, 2010), and CONTEMPORARY BRITAIN (Palgrave Macmillan, 2nd edition, 2006).

Used as a textbook I found the material fairly current, with good text boxes, and informative. I especially liked the sections on Great Britain and China, but found the section on Islam/Sharia confusing in places. Then after all, that is what you have a professor for!

Exactly what I needed. Huge savings. Quick shipping.

Great quality

GoodThanks

I give it 2.5 stars. This text was a mandated reading for a related class. The author tends to present analysis of national cultural and State political systems in a basic and cursory analysis. It reads as a freshman/100 level course text. The historical context is sorely lacking though. The defeat of the Islamic Ottoman Empire in 1683 at the gates of Vienna [Wien], Austria is never mentioned in the Islamic nations section. Likewise, the 1917-1919 invasion of northeastern Russia by the United Kingdom, Canada, Australia, New Zealand, and the United States in support of the White Russian faction, is never mentioned in regard to the Russian suspicions about other nations motives in dealing with Russia. Both events are critical to both Islamic and Russian national identities and have current relevance in geopolitics. This work is a basic primer in the subject and once read, is too perfunctory to be used as a reference material afterwards.

NOTE: This item is the international edition but has the identical content to that of the US edition. I used this book in place of 978-1111832575 at ISU.
