As media tie-ins go, this is a no-brainer. Even without the power of the viral video to back it up, the premise of the book is child friendly, incorporating actual animal calls ("Dog goes woof. / Cat goes meow. / Bird goes tweet / and Mouse goes squeak."), as well as a variety of silly noises, which will go down as a treat during storytime ("Jacha-chacha-chacha-chow! / Fraka-kaka-kaka-kaka-kow!"). Meanwhile, the concept of the fox's sounds as a mystery to be unlocked provides just enough of an element of plot. The illustrations, however, attempting to capture the frenetic surrealism of the video, might be harder for a child to embrace. Nyhus's digitally rendered pictures fall somewhere between the Fauves and the Cubists, with a fiery red fox who is on one page defined by fluid, emotive expressions and on another by sharp angles. The other animals are similarly depicted, sometimes overwhelmingly so. Whether this book will be able to maintain its appeal beyond the life span of the video remains to be seen, but for now, kids will want to catch that mysterious fox. Preschool-Grade 3. --Kara Dean

I don't think I have ever reviewed a book on before...I buy a lot of books as I homeschool several children and have a nice sized library. I bought this book when I heard this catchy tune and found out there was a book coming out. Just yesterday anticipating its arrival I came to read reviews...I was saddened to see some say, "well you can find the lyrics on the computer", and "it isn't a story just the song". I ONLY wanted to song...a cute story in itself. Another poster said it appeared obvious there was a rush in the making of this book to get it out for Christmas and that was the only review that scared me some. Today my book arrived and it certain looks far from any rushed copy. I am THRILLED with this book, it is the song with illustrations that are second to none. They are crazy, whimsical, and fun!!!! You could study these pictures all day long...how anyone could think this book looks rushed is beyond me. The illustrations alone are genius!

My daughter is two so she wasn't really part of this craze but she still enjoys this story. The book is hardcover. Underneath the book sleeve is a beautiful glossy version of the cover. As you read through the book the animation is breathtaking. She unique and quirky like the song. You also can't help but want to sing it while reading it. The chorus is a fun part. My daughter giggles every time. It's a great way to bond and have fun before bed. I had her listen to the song a few times but she definitely prefers the book for now. I reccomend this to any parent looking for a fun book to read. It sets itself apart from every book for sure. It reads fully through the entire song. You literally are reading the lyrics which I think is really cool.

I saw this book in a bookstore when the song came out a couple years ago and did not purchase it then, but often wished I had. Now I have a 3 year old grandson who loves being read to...and I have read every Dr Seuss book to him at least 125 times each so I was looking for something different. Came across this book and knew I had to get it for him! With free Prime Shipping it was less \$10 which was awesome- 2 days later we received this fun book! We love it! It is silly. and I challenge anyone reading this to NOT sing it as you are reading it!

I purchased this book to add to my collection of children's books. The book's illustrations are pretty zany and... odd. I am normally all for that kind of thing, but for whatever reason, I was turned off by it. The book follows the Ylvis song, word for word, with illustrations depicting the song. I was hoping for something a little more creative, but if your kids know this song (which is very likely), they will probably enjoy singing the song as you flip through the pages. All in all, it was a smart choice by Ylvis to make a children's book based off their weird and wildly popular song. I am sure many children will enjoy it, it just wasn't for me.

If your kid is into What Does The Fox Say, this is a great book for them. Otherwise it will not make a lot of sense. The lyrics to the song are a little confusing (talking to a horse in Morse code?) but that doesn't seem to matter to those kids who love the song. Fun illustrations.

Dog goes woof, cat goes meow. Bird goes tweet, and mouse goes squeak. Cow goes moo. Frog goes croak, and the elephant goes toot. Ducks say quack and fish go blub, and the seal goes OW OW OW. But there's one sound that no one knows... WHAT DOES THE FOX SAY?

i personally can't stand this song, it gets stuck in my head and i have to find some loud head banging music (quiet riot, ac/dc) to make it go away. BUT the elementary kids at the school i work at just LOVE it. the teachers did a dance routine to this for the talent show, and this book was in the show. the librarian sat in a chair on the side of the stage reading the book while the dance number went on. the kids loved it. it's on youtube, hpe fox dance 2014 should pull it up.

My kids totally love this book since they love the song. They couldn't sING verse since some of them spammed make sence. Now they learn lyrics.
