## Synopsis

As a distant howl echoes through the forest, animals quickly stop what they're doing and run for home. Look out! A Wolf's coming! As the shadowy figure gets closer and closer and the day draws to a close, the animals shut the door, pull the shades, and turn out the lights. Soon the wolf's glowing eyes appear at the window and the front door opens... But things are not as they seem in this suspenseful, clever story, and it's the reader who's in for the biggest surprise of all!

## Customer Reviews

This book, a favorite of mine, was a gift to my niece's daughter, age 3. I actually ordered 2 copies one for her and one for me. She loves this book as do all the children at a school where I read. Not only are the illustrations and story captivating for young imaginations, but the surprise ending delights, and teaches how preconceived notions aren't always accurate! I WAS SO HAPPY THIS BOOK WAS AVAILABLE .....as it was published sometime ago.....This story is one of my all time favorites.....its sure to delight children ages 3 to 6 and readers ages 18 to 95!!!

One of our favorite books. Had to buy another hard copy as ours got dog eared after a few kids :) It

is suspenseful, even a might scary for some children as the wolf is drawn in the typical vein of big bad wolf. The end leaves the reader pleasantly surprised and asking, "again?!" The illustrations are some of the most detailed and colorful, text is big enough to read comfortably.

This book was read to us when my DS's school had a Parent's "Stay Play" I saw the reaction to the children as the teacher read the book and had to bring it home for him. When it arrived, his eye's lit up and he screamed Momma Wolf's Coming. He's 2.5 years old and loves turning the pages on this colorful book and repeating the words he remembers from story time. It's a really great book and I love just interacting with him as he excitedly talks about the book! I highly recommend this book to any toddler!

Excellent book! Not too much print, but a lot of communication via the illustrations. The colors of the illustrations are some of the best I have ever seen on printed children's books. It's a bit of a mystery story, and ends well, unexpectedly. I wish I could illustrate this well!

My 2 year old granddaughter loves this story. I had to read it five times the first time I read it to her. She loves howling with the wolf and exclaiming "Surprise!" as we read it. The illustrations are great. A winner.

My 3 1/2 year old granddaughter's favorite animal is a wolf. She absolutely loves this books and wants to read it all of the time . Some of the pictures were a little scary the first time we read the book. I also had to explain what a surprise party was so she could comprehend the story. After the first reading , she loved the story. She even told me the wolf "turned over a new leaf and that's why the animals liked him and gave him a party." A wonderful life lesson learned!" I highly recommend this book.

I gave this book to my nephew, and was told that it quickly became his bedtime favorite. The illustrations are beautiful, and the story has both suspense and twist, which is refreshing in children's books. I have since bought it for two younger cousins as well.

So our daughter came home from school and earnestly told us that Wolf is Coming. We weren't sure if this was some veiled and creepy Doctor Who reference or something else. Suffice to say, we were relieved when we finally learned that it's all about a surprise birthday party for their friend Wolf.

He's not going to blow your house down; he's there for his party!
