Barron's ACT

Synopsis

This updated test prep manual for college-bound students presents detailed review of all ACT test topics--English, math, reading, science reasoning--and guidance in responding to the optional essay. All subject review sections include additional practice questions, study tips, and test-taking strategies. The book also offers a diagnostic test and three full-length ACT practice exams with all questions answered and explained.

BARRON'S GIVES YOU THE ANSWERS! Every question in this book comes with a
complete and comprehensive explanation

Definitely one of the best books out there to prepare to take the ACT. I purchased this for my son, to
help him improve his score. As a teacher, I can tell you that if you study this book, your score will go
up. I've looked at a lot of ACT prep guides over the years, as far as I'm concerned, this is the only
one you need.

We use Barrons SAT for our In-Home Tutors business but based on recommendations from our
tutors have stopped using Barrons ACT. They prefer Princeton Review -- better strategy, more
practice tests and examples.

We use it with every one of our ACT test prep students in our one-on-one tutoring in home tutoring
company.

Very helpful

I loved it. I would advise anyone to buy it if they want an excellent book..... ..

This book, with its badly-worded, confusing, and unrealistic question, will do more to frustrate you
than to help you prepare for the ACT.

I'm not sure what the problems for other reviewers were, but my experience with this product has
been great. I took the ACT two times and got 33s, then sat down with this book and went through
highlighting all the portions I was unsure of. The night before the test I reviewed my highlighted text
and received a 36. I can't say for sure that this book was the sole reason I added 3 points to my
score, but it definitely helped and I recommend it to anyone trying to up their score by a few points.
With how much admission and scholarship offers are based on standardized tests these days, \$10
is an investment worth making. Good luck!

Yuck! I bought this book and found it totally useless. This book is very poorly written. The questions in this book are nothing like the ones that are found on the ACT. I would recommend the McGraw-Hill series to study for the ACT.
