Customer Reviews

This is a really cute coloring book. I bought as a gift for Christmas but I think I'm going to buy one for myself later. The artist draws with a lot of whimsy, and while not complicated, it sure looks fun to color. It was advertised as an adult coloring book but I could easily see a kid around 8 enjoying this just as much as any adult. I appreciated the artist little notes in the beginning and I really enjoyed the accurate dinosaur names. This is a lot of fun and I highly recommended. My only complaint would be that it's rather short. It's so cute I didn't want it to end.

This is a GREAT eclectic coloring book to add to my collection! This coloring book includes excellent paper quality, centered pictures, and great variety in imaging. Perfect!

This is a hilarious coloring book that you will purchase more likely for humor than actual coloring endeavors. Although PG-rated, the book caters more toward and adult audience. The book includes

a series of creative vignettes depicting the ennui of dinosaurs who have menial jobs. The book makes for a good gift, coffee table display, and conversation starter.

This is an adorable coloring book, with nice clean printed lines. The pictures are only on the fronts of the pages, so they don't have any bleed through of the images behind them.

Cute illustrations, very appreciate of dinosaurs of all employment levels, does not discriminate based on species.

My kids loved this coloring book. It is so fun and every page gives us something new to laugh about. I am a huge fan of all that Theo Nicole Lorenz does. Highly recommend!

This coloring book is absolutely my favorite coloring book! I bought 2 of them (one for me and one for a friend) and it keeps me laughing. Most of my coloring books are the same thing - paisley designs meant to keep you calm or whatever but I find them to be overwhelming sometimes which is so not the point of adult coloring. This one is simple in design with captions of what's going on in the picture and I love it. I mean come on... Dinosaurs with jobs? Sign me up!

I love this coloring book. It's awesome. I just wish it was more than 20 pages.
