Customer Reviews

I recently started teaching very young beginning voice students and have been looking for materials which incorporate basic singing skills, ear-training and readiness for reading music notation. I can already see this as a great tool for each student to have. It includes activities for class, student/parent participation between lessons and songs to learn which complement the instruction materials. Some songs are even the author's own original works. This is designed to be used as a workbook/coloring book/at home participation tool in conjunction with a class or private lesson setting, requiring a copy for each student to be most effective. I have no problem recommending this

product to my students' families and they have no problem using it.

I am really enjoying the Little Singers Level A book. It serves as a coloring activity book for students to enjoy at home. The online recordings are also a useful tool in lessons. You can download them for free from the website, and put them on CD's for students to listen to and practice at home.

Great supplement for voice lessons! I use this as part of my curriculum for all of my young private students. I love how it introduces the fundamentals of singing, but it's done in a way that their young minds can understand. I also love that introduces sight reading, rhythm, and ear training too.

I teach music classes for our homeschool group, and I find this book to have wonderful ideas for young singers. This book is geared toward ages 4-7, and the next book is geared toward older elementary age students. I have found both books to be developmentally appropriate and fun for their target audience, so I would recommend them to anyone.

Love it

Excellent! Very helpful suggestions.

Plan on using this with 3 - 5 year olds. The songs are easy and help beginning singers hear pitch.

We bought this for our granddaughter. It is very helpful. She loves to sing the songs included in the book and loves doing the vocal exercises.
