Average Customer Review: 4.5 out of 5 stars 98 customer reviews

Best Sellers Rank: #11,070 in Books (See Top 100 in Books) #9 in Books > History > Europe > Great Britain > England #15 in Books > History > Europe > France #22 in Books > Textbooks > Humanities > History > Europe

## **Customer Reviews**

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

Good review. I purchased this review book along with that Crash Course review book (with a blonde boy in front of it) for my ap euro class. I preferred reading out of this one because it felt like I was reading a book. The Crash Course copy was more like reading from notes whereas this one gave you the full understanding. If you are taking the class and want to truly learn and understand the

history about Europe, I recommend this one. But if you just need a last second cram and want to quickly review the "important stuff" then buy the Crash Course. This review book overall had great information and wasn't hard to follow at all. There are multiple sections covering each era. The only issue was not purchasing it sooner. **\*MAKE YOUR PURCHASE BEFORE YOU TAKE THE CLASS.\*** My big mistake was buying it just 1-2 weeks before the exam

I think this book is amazing, because it is so concise yet so informative! It is similar to crash course, but more info, and better FOR THE CLASS! It helped me with my summer homework and I hope it will help me in the actual class. I think I have a chance to get a 5 on ap euro this year with this book and crash course! I also recommend Barron's the practice tests on the AP exam.

Great for if you're taking the class. This is the reason I'm passing AP European History with a 96. Easy read, easy access. GREAT study tool.

Modern European History is a very well written outline to European History. It is not overwhelmingly concerned with small details, rather it shows the big picture in European History. This is helpful for the AP Exam, for other classes, and for any debate. It doesn't have much detail but has many smaller things (The War of Jenkin's Ear, The Moroccan Crises, etc.) that aren't in the other AP books. This is helpful for citing examples, especially in the free response areas. Its outline format makes it easy to remember, and also helpful for the big picture in cultural, political, and economic changes over the centuries. I would definitely recommend this book to anyone studying for the AP exam, along with the Princeton Review guide to European History.

This book is so perfect for AP European History. I would use this as my clutch study guide for a few tests, and I never got below an A+. It is more detailed than many other guides, but all the information that it contains is very important. It is organized in a clear, concise way, and doesn't try to give you "strategies for a 5" or whatever, which don't really help anyway.

I read this book alongside the textbook and AP Prep Guide and found it very helpful. The format was great and gave good insights of both the general information as well as details. Definitely recommend!

Bought this for my daughter to study for EOC test. Seems like a very good resource.

Only works well as a review of the whole AP EuroHis course. Does not focus on revised exam.
