Bob Garrett is a Visiting Scholar at California Polytechnic State University, San Luis Obispo. He was Professor of Psychology at DePauw University in Greencastle, Indiana, and held several positions there, including Chairperson of the Department of Psychology, Faculty Development Coordinator, and Interim Dean of Academic Affairs. He received his BA from the University of Texas at Arlington and his MA and PhD from Baylor University. He received further training in the Department of

Physiology at Baylor University College of Medicine and at the Aeromedical Research Primate Laboratory, Holloman Air Force Base. Bob lives on a 3,200-acre ranch he shares with 47 other families in the hills outside San Luis Obispo. His two sons and three beautiful grandchildren all live nearby.

great item

if i could give negative stars I would. The study guide had completely wrong answers. By far the biggest waste of money ever

The guide was helpful when the answers were accurate. I would have given this higher ratings if the editor had actually edited for content and matching- an email to the publisher got a one time response but nothing after. Make sure you check the answers to the actual book for the last few chapters.

Nice workbook.

Publication was uptodate for my edition, which was not current for the semester, but author's textbook was a perfect for my class. Larry

Good book heeled a lot with the tests
