Cruising The Philippines

Synopsis

Cruising the Philippines is a comprehensive travel guide for people intending to cruise through this amazing nation of islands by sail or motor yacht. The first section provides a huge amount of general information that will be invaluable to anyone new to the Philippines. It covers many topics - weather, navigation, provisioning, Immigration rules, safety, etc. The second section provides detailed information about the various island chains and groups of the Philippines, and gives specific descriptions of hundreds of anchorages, including latitude and longitude, depth, facilities nearby and degree of protection from the weather. This guide was compiled by us as we cruised the Philippines between 2012 and 2016, so the information is up-to-date and relevant for anyone intending to visit and explore the country by boat.

Customer Reviews

We have been cruising in the Philippines and Malaysia for the past two and a half years with the benefit of the Passage Notes which Sue and John have made available through noonsite.com. We are currently in Borneo, heading back to Palawan and the Calamians, and are thrilled that the

Woods have packaged their wisdom efficiently in this cruising guide. We will enter the PIs in the middle of typhoon season and their notes and tables of anchorages will let us identify storm-safe locations when needed. With their advice on shopping you'll find fair deals and quality provisions that otherwise would be near impossible to uncover -- unless you put in years of research, as they have.

Wow! What a great find. I cruised the Philippines for 2 years some time ago and Sue's guide would have saved me many times. It is full of very detailed info about anchorages and activities. Sue has described several places I missed during my first cruise that I am currently bound for this trip. Very well written and even enjoyable as entertainment as well as an excellent reference. Thank you Sue Woods

Great book. A must for any yacht cruising the Philippines.
