Gracious Wild: A Shamanic Journey With Hawks

Synopsis

Gracious Wild is the story of Stacey Couch's incredible journey out of the mundane world of science and reason into the vast shamanic realms of creativity and inspiration. Readers will travel on this intimate exploration of what happens when one woman allows the messengers of nature to guide her. These winged guides wrap her mind up in the mysteries they present, leading her to a richer, more fulfilling life. Stacey's tale begins on an isolated island where, as a scientist, her main responsibility is to care for a couple dozen foxes in captivity. As a result of a series of ecological tragedies, the fox population is on the verge of extinction and a novel hawk species begins nesting on the island for the first time in recorded history. It is during her time watching the nesting hawks alone in nature that her real quest begins—series of hawks become her guides; rousing life's biggest questions like "why am I here?" Gracious Wild weaves Stacey's relationship with the hawks alongside her study of shamanism with a good deal of information included for those seeking more details about this spiritual path. Stacey's belief is, "that wild animals are trying to speak and interact with us every day. To listen to them is to listen to that which is divine within each of us. Their calls mirror our own inner calling to a greater purpose." Gracious Wild offers a vivid and candid tale of a woman who loses then rewrites the meaning of her life at the same time showing readers their own humanity; how being open to spirit messages from animals can provide important and beneficial (life-changing) guidance.

“Simultaneously realistic and mystical, Gracious Wild weaves archetypal themes into the author’s personal connection with the proud yet wounded birds of prey who changed her life. Stacey’s heart-warming, at times heart-wrenching, narrative scintillates with possibilities the modern human mind normally embraces only in dreams. Reading this soulful, beautifully written book is a shamanic journey into nature’s wisdom of renewal, empowerment, compassion, and hope.” Linda Kohanov, author of *The Tao of Equus*, *Riding between the Worlds*, *Way of the Horse*, and *Power of the Herd* “This is a uniquely passionate and powerful book that explores the deepest mysteries of connection within the expressive world of birds. The author’s personal journey is so well expressed to enlighten the messages available when we open to this sacred connection. This book will assist readers in transforming their everyday relationships with creation. Inspiring us all to honor, listen, and protect our messengers of the divine.” Melisa Pearce, author of *Touched by a Horse* *Inspirational Deck (Whispers from a Horse’s Heart)* “Stacey shares the doors to her wild self in her book in an authentic manner. This is not a guidebook to shamanism, though she does provide a brief introduction and helpful resources. Instead, *Gracious Wild* is a woman’s story of her spiritual journey. Her story is an inspiration for those of us looking to connect to our wild selves as well. It is told with love and honesty. I can see women coming together to read Stacey’s book, discussing all the doors it opens for exploration. I can see how once you have read her book you won’t see the wild animals around you in the same way.” -Paola Suarez, *SageWoman Magazine* “*Gracious Wild* is a remarkable and heart opening story. Stacey Couch shows us how our relationship with nature and the wild creates a bridge between the seen and unseen worlds. This is such a beautifully written book that takes us into the deep mysteries inspiring us to create a deeper and more profound connection with the natural world.” -Sandra Ingerman, MA, author of *Soul Retrieval and Medicine for the Earth* “This treasure is a must for all that love nature and are intrigued by the shamanic way of living, whether new or experienced. There is nothing I love more in reading a book than to enter into the adventure of a great story and find myself profoundly affected by depth of emotion and experiential wisdom. *Gracious Wild* does this and more in a provocative story that weaves together the raw beauty of nature, the fragility of life, the yearning of the wild, and the sacredness of Spirit through the author’s insights, healing, and travels through dimensions and worlds most people know only in their dreams. This exquisitely written book warmly touches hearts and gives flight to the soul, while offering opportunities for healing and cathartic release. Don’t be surprised if *Gracious Wild* moves you to tears and helps you experience some spontaneous healing of your own.” Colleen Deatsman, author of *The Hollow*

Bone and Seeing in the Dark" Our ancient ancestors understood that sacred Nature and her plants, animals and birds were masterful teacher-healers. *Gracious Wild* is the powerful story of one woman's profound healing in the company of hawks. Along the way, we become enthralled by the magic of synchronicity and the joy of spirit mirrors. In the madness of this modern world that we live in, I found *Gracious Wild* to be a gentle oasis of joyous and uplifting sanity."

—Jon Turk, author of *The Raven's Gift: A Scientist, A Shaman, and their Remarkable Journey Through the Siberian Wilderness* "Stacey Couch's *Gracious Wild*, A Shamanic Journey with Hawks is a fascinating and tender account of her journey into healing which was aided and mentored by the intimate contact she shared with a series of venerable hawks along the way. Stacey Couch beautifully describes her own journey and artfully weaves together her encounters in a way that accesses the draw our souls all feel to nature while also enrapturing our minds in the mystery."

—Christa Mackinnon, psychologist, psychotherapist, counselor and author of *Shamanism and Spirituality in Therapeutic Practice* "Gracious Wild illuminates how our animal allies are ever present and persistent teachers, constantly whispering encouragement for us to unfold into the magnificent beings that we humans have the potential to be. With the detail of true mouse energy, Stacey's writing brings the winged-ones to life: seeing the feathers' colors, imagining the breeze created by the flap of a raptor's wing, feeling the presence of the soul of each marvelous bird. A beautifully crafted tale of one woman's journey of awakening to the power of the visible natural world,

If I remember correctly, I came across this book in one of Sandra Ingerman's Transmutation News newsletters and I was so glad to come across it. I had been curious to learn more about hawks and what they can symbolize due to a memory I have from a rollover car accident I was in as a child where there had been a couple of hawks sitting on the gravel road about the time my mom lost control of the car. My brother, who saw the hawks, and I feel that the hawks were definitely a positive symbol since I, my 3 siblings and my mom all survived the rollover despite not wearing seat belts. This book has helped me to see the hawks' presence during the time of the accident as even more powerful and meaningful. I especially enjoyed reading Stacey's shamanic journey and dream stories which helped to weave together the entire story in this book. I'm thankful when people, like Stacey, open up about their dreams and visions because I really feel a connection to them and the

symbolism is so rich and makes my soul feel nourished. I was blown away and became emotional when I read about Stacey's vision she had where one of the hawks' spirits brought the spirit of the mouse it had killed back to the spirit world. That story gave me a whole new perspective to have with some of the happenings in nature and I'm thankful for this. One other part I really loved and was affected by was reading about the design on Graccia's breast that Stacey discovered. I was so curious how her shamanic journey's message relating to this design would unfold and how it eventually did is so amazing. I wish I could have seen this design and of course, Graccia and her Wild Grace, in person. I need to work on standing in my own power and I had never really thought about viewing birds, like the hawk, as helpers for inspiring me to do so. Reading about this really resonated with me and makes so much sense. I will now be keeping my eyes even more peeled for hawks that I may encounter on my path.

One of my favorite lines in this book is "When you are a gift to yourself everything shifts, sparkles around you." Reading this book was certainly a gift for me. Gracious Wild is a beautiful book for anyone who loves nature and animals and has always felt there is more spiritual guidance present in the company of animals and birds. Stacey Couch ventures further into this enchanting and sometimes painful world than most of us have ever dared to demonstrate how to utilize the world around us to find our true purpose and direction. Her story is woven into a beautiful tribute to the birds that helped her find her spirit and direction. It is also an understandable and inviting introduction to Shamanism. When we open our heart, mind and soul to the forces around us we can find our true course. This book has furthered my understanding of this .I have purchased more books to give this year hoping each friend that receives it will find their own gifts. Thank you Stacey for sharing your life with us.

This book is heart wrenching and heart opening. There is joy, inspiration, tears, and sadness. Stacey has a gift of transporting and transforming emotion through her words. I felt a very strong connection to the animals- even though I wasn't there and haven't done any wildlife rehab work. I couldn't put it down. The story was very original, but I found myself relating to it quite a bit. It helped me to rethink some past experiences, and find new meaning in present ones. I came away relieved and looking forward to the fact that there is magic in the world every day.

The authors connection to animals and nature is very captivating. Stacy Couch makes you feel as if you are there with her as she sees, feels, journeys, and grieves. This has helped me be more aware

of some events that has happened to me in the past. A perfect book for someone (like me) who is starting her own studies in Shamanism. I would highly recommend this book for beginners and plan to keep going back to it for future reference.

This is more than a book, it's a spiritual journey. I thoroughly enjoyed every page, and it gave me a deeper understanding of my own experiences with birds and animals. I appreciate the wisdom and life experiences than Stacey shares, and found it to be educational and very healing, a valuable gift!

Gracious Wild was an intimate journey with a woman on a quest to find deeper meaning in her life. She shares with the reader, the kind of personal experiences that she would share with a close friend or confidant. By sharing in this way, you join her on her journey with the wild hawks and owls and share in her love of nature and wake up to her meaningful messages.

Stacey's journey from academia to the world of Shamanism is fascinating. Her detailed writing allows those without the same insight to catch a glimpse of a different perspective of the world. I very much enjoyed being taken along for the ride.
