The songs are well within my ability to play--not too hard, not too easy. I appreciate the selection of hymns in the book as many of them are songs that we sing in our worship service. I am new at playing the more contemporary praise and worship songs and this book is the perfect place for me to begin. I am excited about getting started!

I brought this book for my daughter who plays at church some. She loves the arrangements, and the songs are not too easy, nor too difficult. I would recommend this book to others.

Great collection of current praise songs. It would be a good book for a beginner as the songs are written very simply. I purchased it to familiarize myself better with the songs we sing at church and it has been perfect for that. The easy arrangements make it fun and relaxing to play.

Great worship songs. Love using it for worshipping at church, or having gatherings at home.

We bought this for my 13 year old daughter and it has brought new life to her piano playing. She loves being able to play songs she can sing along with instead of the songs in the primer books. Just challenging enough that she needs to work at them, but easy enough to pick up quickly (especially the melody line).

love it

Good book. Just finished practicing the first pieces. I'm sure I can play that at my church.

Really great book for beginner to intermediate student, depending whether it is for work (beginner) or more recreational (intermediate). Good variety of songs, and also really varied arrangement styles so they don't all end up sounding the same. I've been extremely pleased with this purchase!
