## Customer Reviews

Perfect, thanks!

This is great! Even better than I thought it would be. It's much bigger than I imagined, but that works out perfectly because it makes it very easy to see all the pictures. My son loves Lift Flap books and I can't wait for him to open this for Christmas.

Not exactly sure how it happened, but the book came with a 49 cent label in the corner and in

terrible condition. The book itself is a good book, but the condition of the one we received was the worst I have seen. It was ripped and missing many, many flaps.

Good, but I wish the flaps were made a little sturdier. My 15 month old daughter has torn or bent many of the flaps. However, she does get a lot of enjoyment from this book.

Love this book and my grandson too. He loves looking at the bright color pictures. Is a great teaching tool to help them develop vocabulary and introduce them to reading.

My 16 month old daughter loves this book. She will sit and read it over and over. Every page has lift flaps with cute pictures underneath.

Excellent book for young toddlers! This is a big book with lots of flaps to lift. The flaps tear easily though, so some supervision is needed while the child explores the book, but that is to be expected with any lift-the-flap book! This book has pages with themes like "toys", "things that go" and "pets", etc. and then the last page has number flaps from one to ten. My twin toddlers are two years old, and both of them have taken a great interest in lifting the flaps to discover what's underneath, while learning new words. It's an excellent book for toddlers to explore and learn and I would highly recommend it!

Best book for toddlers !!!
