Customer Reviews

For almost 80 years, Kaplan Test Prep (www.kaptest.com) has been helping students grow their knowledge, skills and confidence so they can be their best on Test Day. Our prep books and online resources provide the expert guidance that students need at every step of their educational journey

— incorporating years of test-specific data and strategies tested by Kaplan students and our own expert psychometricians. After helping millions of students, we know what works. Our guides deliver knowledge with clarity and simplicity while focusing on the specialized strategies that keep test-takers ahead of the clock and at the top of their game. We offer preparation for more than 90 standardized tests — including entrance exams for secondary school, college, and graduate school, as well as professional licensing exams for attorneys, physicians, and nurses. With a full array of self-paced and live online courses, as well as print books and mobile apps, you can use Kaplan to study on your own schedule and at your own speed. Kaplan’s private tutors and admissions consultants supplement those offerings with one-on-one support.

I found the flash cards related to grammar, word choice and math equations to be very helpful, but was disappointed by the number of questions related to the format of the test rather than the skills being tested. On the other hand, as someone fresh out of undergrad, I felt prepared for standardized testing strategies and the format of the test, and just wanted to refresh my basic English and math skills, so I only used about half of the flash cards. Overall I think these were worth the money though.

The cards are pretty wordy but made for a good starting point for my studies. Veritas Prep materials are more my language, short and sweet, while still drilling down to specifics.

very basic overview of material, but NOT a good study tool for the deeper understand of how the GMAT actually asks questions.

I probably could have saved my money. Not really helpful on material like some of the practice books. Most of the cards ask about type of the questions on the test not really the material. If that makes any sense. Not what I expected.

Really not what I thought they were. I love Kaplan products....I thought these cards would assist me better with studying for GRE...they were ok

Exactly what I wanted.

arrived as advertised. new

No holes on the cards, the material is just ok. I would not recommend it.
