“Doug Lemov is also essential reading for anyone who wants to create a safe learning space for children of all ages by building up habits that will support success throughout school and beyond” (Time Education Supplement, August 2015)

Achieve classroom greatness with updated Champion techniques Teaching is one of the most important jobs in the world and often one of the hardest. Excellent teachers continually strive to learn and improve their craft, and no matter how good a teacher is, there's always room for improvement. Teach Like a Champion became a global bestseller because it offered concrete, engaging, easy-to-implement techniques teachers could use to keep their students engaged, focused, and learning. Teach Like a Champion 2.0 compiles the feedback gathered from real teachers in real classrooms around the world to deliver an updated set of techniques, made even more effective by the continual fine-tuning of daily classroom use. Effective and informative for both new teachers and classroom veterans, Teach Like a Champion 2.0 describes how to: **ADJUST CLASSIC TEACHING TECHNIQUES TO BE EVEN MORE EFFECTIVE IMPLEMENT ENTIRELY NEW TECHNIQUES THAT KEEP STUDENTS ON TRACK TRANSLATE THEORY INTO ACTION WITH VIDEO DEMONSTRATIONS** "Teach Like a Champion 2.0 made me a better teacher. The rigor, depth, and applicability of each technique Doug shares immediately allowed me to improve the teaching I do with school leaders, teachers, and kids. TLaC 2.0 builds seamlessly from the first edition—going deeper on some key concepts and introducing us to a host of new methods." —Dave Levin, cofounder, KIPP "Like the fantastic teachers who have informed this book, author Doug Lemov is never satisfied and is constantly pushing himself and others to a higher and higher level. Teach Like a Champion 2.0 is a must-read for those in pursuit of ensuring their students learn at the highest levels, including those who read Doug's first amazing book!" —Wendy Kopp, founder, Teach For America; chief executive officer and cofounder, Teach For All "I love two things about Doug Lemov and the Uncommon Schools team: a relentless focus on student learning, and a dedication to the proposition that the best professional development occurs when teachers learn from teachers. The pages of Teach Like a Champion 2.0 are imbued with both ideals." —Daniel T. Willingham, author, *Why Don't Students Like School?* and *When Can You Trust the Experts?*

I love the book- wonderful additions to what was already great in the first edition. However, the used copy I purchased did not include the videos. Bummer for me trying to be cheap last summer and save my hard earned teacher dollars. I would recommend this to everyone, whether an experienced

or a new teacher. I have used it in mentoring new teachers with much success.

If you can only afford one book on classroom management, buy this one. Mr. Lemov has the proven techniques for today's difficult classroom issues. The webcasts are terrific!

This book is amazing...is it weird or petty that I wish it had pictures or charts or something to break up the chapters and chapters of information. The techniques are priceless but overwhelming.

I'm using this book while taking courses to become a teacher. I feel more confident about my ability to succeed because I have read this book.

Every teacher should read this. So many great ideas

I really love this book, and am excited to learn from it!!! One bummer is that, on the Kindle Edition, I can't seem to see the videos linked to the book. Is there any way to resolve this? I'm going to look up solutions, but I'd super appreciate some insight!

Love the ideas presented in the book. To allow us to have a common language for everyone within our building makes conversations so much easier, but makes an even greater impact upon the students.

great product, great service
