Easy to follow and to use. My 8 year old daughter's teacher recommended this book for her to use as a practice guide at home. Because she is young, I do need to help her read through the exercises. This was easy to do even though I do not have any guitar playing experience or ability.

i was taking guitar lessons, but the teacher has NO PATIENCE, JUST WANTS MY MONEY. Good book.

I bought this because my husband got me a guitar for Christmas and I am taking lessons. It is a great book for beginners, teaching the strings and how to hold your guitar and pick, and then progressing slowly through notes on the various strings. The songs that are provided are fun to play. Great starting point for someone who wants to learn the guitar.

Happy with this guitar book! It's very easy to read and understand. It's very basic, so it's not a good book for an intermediate guitar player. Love how it illustrates the notes on the guitar and the notes on the staff lines. Great tool to learn guitar!

This is the book which I have been seeking. It is very similar to the one I used when I took lessons as a child. If you are looking for a good basic beginners book this one is highly recommended. It will not make you a rock/country or Christian recording artist overnight, it will give you a firm foundation for reading notes and learning the strings.

use it daily to learn chords, notes on strings, uploaded the CD to my NAS so I could play the songs we're practicing from any wireless device in the house.

had this BRAND NEW BOOK in the slightly used section. Although I was ahead of the learning curve it served its purpose for a fraction of the cost.

I wish I would've found this book first! Easy to understand!
