This book gives great base to the knowledge required to start learning the basics of Hinduism. The religion is a belief in doing well for others to enrich ones own life and perhaps accumulate the good karma needed to reincarnate into a better person. I find Hinduism, closely related to Buddhism, in teaching to love yourself and to love, respect and help your fellow human beings. Our world needs much more love, understanding and enlightenment. Thanks to this author for opening eyes and hearts to the possibilities.

I never had regrets in getting this book. Actually I got it to have a reference for my research at school for my Philosophy subject. I love its content because it is very informative and inspiring. I have greatly understand all about Hinduism an is essence that is why people are so much interested about this. Thank you Cassie for helping with my research! Thumbs up!

This book has been enlightening to say the least. I grew up in a society with lots of Hindus and we had lots of misconceptions about their religious beliefs. This book aid my appreciation for Hinduism and help me dispel some of the old myths that was circulating about this Religion due to ignorance. Well written

Good reading with tons of good information understand Hinduism.Sometimes feels like too much information, but is a fair amount tolerable and easy to understand. Illustrations is the only thing missing but for free, I guess is ok. Saw other reviews that claimed it was superficial, I guess that's why it is for beginners.

You just have to love this book.The book gives the origin and evolution of Hinduism,different beliefs,practices and rituals of the Hindus.The book also explains reincarnation and other historical facts of Hinduism.It has helped in changing my perceptive about Hinduism and I am very pleased I read this book.

Mostly a list of gods, rituals, legends descriptions without giving connections between them. So I found all somewhat superficial, not much insight into this religion.

Looks like the author has paid someone to write this useless piece of pamphlet. Some gods don't even exist. Too superficial and poorly edited.

Hinduism beginners is great Noval....I gifted this nice book to my close friend.It is well explained by wonderful author. .I highly recommend it
