Growth Mindset For Kids: We All Have Brain Power!

Synopsis

Why do kids need to know about Growth Mindsets? Scientists have found that there are two different kinds of mindsets: FIXED MINDSETS and GROWTH MINDSETS. A fixed mindset never changes. In a Fixed Mindset your failures define you like, "I'm no good at dancing!" • If I never learn new things or never make new friends, I have a fixed mindset. My growth mindsets can change! When I learn something new or challenging then I have a growth mindset like, "I can't dance yet. If I focus and practice, I can learn to dance."

Book Information

Paperback: 46 pages

Publisher: Independently published (December 9, 2016)

Language: English

ISBN-10: 1519074867

ISBN-13: 978-1519074867

Customer Reviews

I loved this book. It is good for kids of all ages to learn what the mindsets are. It also helps kids learn how to stand against bullies. I also like how it is easy to read for younger kids, so they can understand this. This can help me with sports and running so next time I want to give up, I know I can do better and put on that extra effort.

I bought this because I read Mindset by Carol Dweck. Anything encouraging the growth mindset in children is worth 5 stars in my book.

Awesome little book

This book is very different from any I have seen. This book definitely seems like one I would read and discuss with my kids before they head off to the formal classroom setting.
