Good for the whole family, excellent recipes and advice in this packed book. A must have for Moms and Dads who are into eating the healthy way.

Enjoying making the recipes. This is the first raw/vegan book I have read that the food tastes good and my family will eat it.

Very helpful for 4 adults that have different tastes from meat eaters, to meatless meals. Great tasty ideas that everyone can enjoy and using good food.

Lots of great information. I can't wait to try all of the recipes in this book!

Arrived quickly..great book with lovely photos and recipes

I wish the book had a better flow... But the tips in the book are good. Recipes were basic can be found online.

Received my book a day late: but it looks awesome. I'll b giving some of the recipes to my preacher's wife

This is geared towards getting your kids to eat plant based meals, but I think it is helpful for all of us. We live in a world where there are so many by-products, hormones and chemicals used in our food, no wonder we have become so unhealthy. I enjoyed this book because it gives helpful advice without being preachy or pushy or shoving things down your throat. (Pardon the pun.) Easy to read

and follow. I highly recommend young and old, if you are interested in adding more plant based meals to your life.
