Planets (LEGO Nonfiction): A LEGO Adventure In The Real World

Synopsis

Blast off with the LEGO(R) minifigures through our solar system and beyond! See incredible stars and planets and find out the latest space facts--from water on Mars to Planet X. The LEGO minifigures put the fun into facts. You'll find great LEGO building ideas, too! LEGO(R) minifigures show you the world in a unique nonfiction program. This book is part of a program of LEGO nonfiction books, with something for all the family, at every age and stage. LEGO nonfiction books have amazing facts, beautiful real-world photos, and minifigures everywhere, leading the fun and discovery.

Penny Arlon writes children's nonfiction, taking inspiration from her own children. Her books range from preschool titles to family reference books, and include the Art Attack books, based on the award-winning CITV (UK) children's television program, and all 14 titles in Dorling Kindersley's Eye Know series. She is the author of almost all the books in the Scholastic

Discover More emergent and confident reader strands, which have won numerous accolades and prizes.

Nice

Great concept of using Legos people in the Planet book. We just used it for my son's science project for school. It was not a boring book. Reading some comments from each lego person made my son laugh and get creative with his science project.

Great book, my son wanted this at his school book fair, checked before buying and I am glad I did, much cheaper buying through

My son loved it! He loves everything thing astronomy and the Lego aspect made it fun to read!

Should stimulate interest in the planets and stars in any LEGO fan.

Came right on time, was just what I wanted.

Nice book, interesting to a kid

Nephew loved it!
