## Customer Reviews

It you are preparing to become a certified massage therapist; these flash cards will help you learn the terms you need to know. With more than 200 flash cards, you can work through learning the terms. Of course, the definitions sometimes need to be redefined as they contain medical terms. There is a nine-page introduction chapter which contains a chart of what you will find on the test. It also tells you what you need to do after you pass the certification to comply with the state you plan to practice in. If massage therapy is in your future, this book will help you prepare.

These flash cards are full of concepts and terms useful for the massage and body work text exam. There are more than 200 cards that can be cut out and laminated to keep with you as you study at work or home. The information has the latest up to date info that will ensure you pass the exam on the first try. This booklet was given to me to use at my own discretion. Enjoy studying!

These flash cards are a great way to study up for the MBLEEx. Cutting them out took no time at all and they made my study sessions much faster. The cards have great information on them, like basic principles and terminology. Going through these cards helped me drill these concepts and I got pretty quick at going through them. This set also contains some basic information about the test, what to expect, etc. There's also an offer for a free DVD if you're interested. This is such a great study tool and I'd definitely recommend it.
