Patricia Harris and David Lyon courted over potage dâ™oignon gratinÃ© on rue McGill and steak-frites on rue Peel, and decades later remain convinced that Montreal is a world-class destination for both romance and food. Their food writing has appeared in the Boston Globe, the Robb Report, Cooking Light, Food Arts, and the Washington Post. They coauthor the blog HungryTravelers.com.

We live 1 1/2 hours from Montreal in Vermont so we go up there for 2 days all the time and this guide has helped enormously in deciphering the amazing food scene in Montreal. There are very few Montreal Restaurant Guides other than the big international guides like Fodors etc This one was written with local knowledge and just focuses on the food scene. Invaluable!

Love the book so far. Very similar to a one a used in Paris a few years back, Clothilde's Edible Adventures in Paris. So far, a great book. Going to Montreal in April and will re-review then. Found one restaurant closed, as I always double check everything online. As a guide to restaurants, I find this book much more useful than the regular guidebooks.

We were in Montreal for the first time, spent 10 days there and this book was invaluable went to about 11 different recommendation and all were very accurate, highly recommend.

I like reading about food almost as much as eating it. This guide was the perfect appetizer to our recent trip to the city. It was helpful, detailed and never boring. It also helped me get a grasp of what the neighborhoods would be like.

yes, it means sale (as my 12 year old reminded me several times ) but we managed to hit 4 of the 5 Marches in Montreal. This was surprising to me, that my teenagers would prefer this atmosphere than churches / bookstores/ underground city. We found the one by Little Italy to be the friendliest and good variety. The recipes interspersed thru the book, especially if you read before you go, pique your interest, and are easy to replicate. We had a great meal the following week. We have unfortunate truism in our family...the question is not where did you go? What did you see? It is what did you eat? Did you bring any for me? Did you pass anything cool on the way there? I think once I

heard "Some Basillica, you know Hunchback of Notre Dame. " Sacre Bleu! However, they have chosen Canada for vacation 3 times something is Bon. This book was very good for tips and we follows wine/sweets/savorys/specilaties. Just the best mentioned, discover self for your rest. Everyone has their own taste.

The guide has a major flaw: there is no information on restaurant price for most of the entries. Also lacking in most cases is whether reservations are necessary or whether a given restaurant takes reservations. Seems to me that any guide worth its salt should communicate such information. Since I haven't tried any of the authors' recommendations, I can't speak to whether I would have the same experience. That's why I graciously awarded 3 stars.
