# You Are Here: Around The World In 92 Minutes: Photographs From The International Space Station

## Synopsis

Divided by continent, YOU ARE HERE represents one (idealized) orbit of the ISS. This planetary photo tour -- surprising, playful, thought-provoking, and visually delightful -- is also punctuated with fun, fascinating commentary on life in zero gravity. In the spirit of his bestselling *An Astronaut's Guide to Life on Earth*, YOU ARE HERE opens a singular window on our planet, using remarkable photographs to illuminate the history and consequences of human settlement, the magnificence (and wit) of never-before-noticed landscapes, and the power of the natural forces shaping our world and the future of our species.

## Customer Reviews

One of Space.com's Best Space Photography Books "Is there a person left on the internet who hasn't yet swooned over astronaut Chris Hadfield's jaw-dropping images from space? Here's a chance to have them in your home.... While we've seen plenty of NASA images of our planet, Hadfield's instantly feel more personal. These photos were taken by a curious human, not as part of a larger organizational mandate. Hadfield was capturing his photos not necessarily as a scientist, but more as a zero-gravity sightseer on behalf of all civilization." â••Alissa Walker, Gizmodo "You Are Here ... offers readers a magnificent photographic view of something very familiar: Earth." â••Sarah Gray, Salon
