## Customer Reviews

Interesting facts . Good to color although slightly boring. Almost all pages a variation of the marijuana leaf. Book is on good quality paper & arrived on time

The paper quality is not good for using gel pens, use colored pencil only. Otherwise, a fun and different coloring experience.

Came early. Just as expected.

I bought this for my bestie and she loves it. She loves all the little facts and the pictures are are pretty cool.

My boyfriend has had a new obsession with adult coloring books so this one is perfect for him and he loves it!

Beautiful. I love the pictures and the little tid bits of knowledge. I deducted one star because of paper quality. Not bad quality just more like a kids coloring book than the ones you see for adults.

Beautiful details

Smaller than expected s a little blurry kn some pages but still awesome gift for my boyfriend that smokes and loves to color
