Customer Reviews

Time-Life Books wonderful photographic account of the Bayous with informative, absorbing text.

I grew up hearing the many stories regarding the Okefenokee Swamp, so I decided to order the book so that I could finally separate the myths from the factual information. It is well written and it was difficult for me to put aside and do chores. If one enjoys beautiful nature photos, this is the perfect book to purchase and read the exciting adventures of the author. It was easy for me to imagine being there beside him as he explored the exciting swamp areas filled with all types of wildlife. Although, man has left his footprints on this wonderful creation of nature, it is still very exciting and worth reading.
