Customer Reviews

CD set to accompany Listen textbook. CDs all work.

All CDs worked. It comes with a key for the interactive listening charts as well which is nice. DOES NOT INCLUDE THE DVD that goes with this book.

I needed this for music 101 and didn't even use it..I bought it used and it was still in very good condition. product is good just hate that it was a waist of money since I really didn't need it for the book.

The CDs arrived on time, in great condition and work well. The quality of the music is good and does aid in understanding the music discussed in text.

CD's worked great..I got an "A" in my music class.

Glad I rented them instead of buying them. They did the job and I saved a good amount of money!

The Cd set came in on time, and there were no scratches on the actual CD. Everything was nicely wrapped as well.

It's for a class so I'm not too excited about it. It was very user friendly when accompanied by the book.

This item was exactly as described. It was new, and has not been used previously, so it works perfectly. -Kas
