Customer Reviews

The entire contents of this book could have been printed in a 10 page leaflet. The book is described as 32 pages; however, it is mostly blank space. Contents was mediocre, nothing new or enlightened. This is a \$3.99 bargain book, at best.

I gave it one star because otherwise I couldn't post this review. Somehow the cover to beeswax alchemy got mixed up with the cover of essential oils..Nowhere in this book, other than the cover, is there a mention of beeswax..very disappointing. The contents, essential oils, were not too bad, but I'm interested for now in beeswax..

Unfortunately I received wrong book when ordering this, it was about essential oils. I'm sure that I would have liked this beeswax book, if I would have received it.

Another reviewer stated that there is about 10 pages of content spread over 32 pages of white space. I have to agree. This is not a book, it's a pamphlet.

Great book

The author had a well rounded list of recipes. It gave me the overview I wanted and the info to make Useful lotions.
