Abduction 2140: SciFi Alien Soul Mates Romance (A Drogon's Fate Series)

Synopsis

The Slythonians are an alien race well known for capturing the best female breeders in the galaxy. Extinction is a cruel and very real possibility, As the Zuvrakian alien warrior race is running out of time. Lord Asgar and his crew have searched the galaxies far and wide looking for an answer to their world's fast decreasing population. After another failed attempt at finding mates, Asgar figures he has nothing to lose when they come upon the auction that the Slythonians are having.

Customer Reviews

Obviously this is an introduction to a new series by this author. I thought the book was interesting but should have at least included one of the characters relationship. Or have been more informative about the planet and its inhabitants. Maybe more on the Dragons and what type of shifter they are. The reader is only given a brief glimpse into claws and wings and the fact the true bond of mates is rare. That's the only reason I gave the book a 4 rating. I would definitely be interested in reading more by this author.

I totally missed this was a prequel and wondered why the story ended so abruptly! That being said, it's a good start to a series building plenty of intrigue for what's in store for the characters. I gave it

four stars because some sentences were a bit clunky, but those are pretty easy to overlook because of the storyline. It's an interesting prequel and quick to read, too!

I really like this story line. I didn't realize it was a prequel, although I am a KU subscriber so I can easily continue the series. I hope the next books have been edited better. I almost let this go as I am limited to time. However, the story captured me and I will continue to see what is happening to the characters or abductees especially the disabled one taken with her friend with no intentions of keeping her. Great addition to the normal read.

So far I love this book!! It's well written and exciting. I can't wait for the rest of the book!!

Spelling errors, commas in weird places, weird terms used. Way too broad in character development- didn't start to get involved in the characters until 90% through the book then it got repetitive.

It surely made me curious and I can't wait to read the rest of the books of this series.

Doesn't disappoint! Great story.

Love it. Read it in setting.
