Large book with some great stickers but I'm a little bummed there aren't more spiders. I have found one spider sticker and it is barely visible, I assumed with a book of a variety of 400 stickers there would be more. I do actually love the added nature stickers of things like leaves, logs, rocks, etc. though. Not a fan of the "silhouette" stickers that seem to take up a lot of space on certain pages. I have already used a couple of them in collages and while they do remove easier than other stickers

if you absolutely need to, they aren't easily reapplied/reusable. Still, I am pretty happy with this book overall and I am sure i will get use out of MOST of the stickers.

Love these stickers.... My kitchen is Bug theme and I needed these to finish off the canisters and assorted appliances. I'm a big kid and I'm guessing a little kid would love these too!! The only thing I would have liked more is not so many butterflies. They are too girly for the look I went for, but I'll give those to a friend's daughter.

The stickers would be really cool if they didn't rip so easily and were easier to remove from the pages.

Bought as a gift but the stickers were very vibrant and pretty.

Perfect for our pre-school co-op. The stickers came off easily (with some help for 3-year old hands) and they were of good quality. The amount of stickers and the variety were the best. One of the girls in the co-op does NOT like creepy crawlies, but she was still able to find stickers in here that helped her when making her insect craft. From an artistic standpoint, they also look like the real creatures--no need to dumb it down for the little kids!

Love these stickers. Highly recommend.

Just stickers, no pages to put them on. Also, I realize they are restickable but they don't stay where we put them.

Neat
