Synopsis

In the fall of 2016, the long-awaited third installment of Takahiro Kurashima's series Poemotion will be published. In the previous edition, color was added; this time he goes back to the roots. Thirty abstract graphic and geometric shapes are brought to life by a black plastic foil. Only when it is laid on the paper do the shapes begin to dance, jump, spin and weave, the reader experiencing the impressive moiré-effect in a playful way.

Takahiro Kurashima, born in 1970, studied graphic design at Musashino Art University.

Amazing stuff!Part math project, part artwork, part toy - all fun.Have the 2 previous books and love them, this one uses a vertical motion so it's easier to enjoy.Thanks for this!!!!!![...]

Very cool!! But be careful if you are prone to seizures/epilepsy - the animation can sometimes make your head ache.

Beautiful imaginative experience
