The Medusa File II: The Politics Of Terror And The Oklahoma City Bombing

THE MEDUSA FILE II

THE POLITICS OF TERROR AND
THE OKLAHOMA CITY BOMBING
(LARGE PRINT EDITION)

CRAIG ROBERTS

Synopsis

Craig Roberts was the only Tulsa, Oklahoma, police officer who was assigned to the tragic Oklahoma City bombing of the Murrah Federal Building in April of 1995. At first he was assigned to assist the FBI in the case, but after seeing what really went on behind the scenes, and how the case was being politically motivated, and the real reasons for the bombing, Roberts decided to do his own investigation aside from the "official" version. After months of work, working with a few other individuals who were determined to get to the real facts of the case, the end result was Roberts building case files that filled four file boxes. This book exposes the real John Doe 2s and others that the US Government refuses to acknowledge exists, and the real reasons the Murrah Building was bombed--and by who. Anyone who thinks that McVeigh and Nichols acted by themselves also must believe that Lee Harvey Oswald was the lone shooter in the JFK assassination. This book follows the author's first expose of government coverups, "The Medusa File: Crimes and Coverups of the U.S. Government." Journey through the maze of lies, falsifications, and misdirections of the case in the chapters that expose details left out by the media. The Oklahoma City bombing case is a mystery, wrapped up in a puzzle, inside an enigma. The Medusa File II takes the reader beyond the curtain and the media smoke screen with a demand that now justice be done for the 168 victims of the horrible event.

The Medusa File IIPaul Craig RobertsCraig Roberts (yes, there are two of us) is a former US Marine and a 27-year veteran of the Tulsa, Oklahoma, police force. He is a capable and committed person. Since 1989 he has written 13 books. His latest, just published, Medusa File II, consists essentially of his voluminous files of the investigation of the bombing of the Alfred P. Murrah Federal Building in Oklahoma City on April 19th, 1995, known as ÃfÂçÃ â ¬Ã Â“the Oklahoma City Bombing.ÃfÂçÃ â ¬Ã Â•

As official part of the investigation, he took the investigation seriously. The investigation proceeded rapidly, developing many leads. Numerous witnesses saw Timothy McVeigh with many dark complexioned men prior to and just after the bombing. Leads were also developed to militias in Elohim City, to the German, Strassmeir, and others. Before any of these leads could be developed, the investigation was taken over by President Bill ClintonÃfÂçÃ â ¬Ã Â„s Attorney General, Janet Reno. Once Washington took over, the investigation stopped. In its place was WashingtonÃfÂçÃ â ¬Ã Â„s theory that it was Tim McVeighÃfÂçÃ â ¬Ã Â„s lonely protest. The voluminous evidence of McVeighÃfÂçÃ â ¬Ã Â„s accomplices or controllers, as might have been the case, was in the way of the official story that imposed itself on the investigation and was not warranted by the investigation. Many people resisted the coverup that descended on the case, including local journalists who eventually lost their jobs or moved on. Roberts stuck it out to the end. So did black Oklahoma City Police sgt. Terrance Yeakey, For resisting the official story Yeakey paid with his life. Roberts provides the reasons he believes Yeakey had definitive evidence that the official story was a coverup. the OCPD was called off once the official story was in place, but Yeakey wouldnÃfÂçÃ â ¬Ã Â„t quit and became a problem. The official OCPD report says it was suicide, but Roberts recognizes homicide when he sees it. There was no autopsy and the police refused to release the police report to YeakeyÃfÂçÃ â ¬Ã Â„s family. Remaining skeptics were dismissed as ÃfÂçÃ â ¬Ã Â“conspiracy theorists,ÃfÂçÃ â ¬Ã Â• and that was the end of the case. One of the striking details that Roberts provides is that in the immediate aftermath of the bombing with

rescue workers removing dead and wounded from the rubble, numerous federal agents appeared, ordered the rescue workers out of the building on the grounds that there were still unexploded bombs in the building. Then with the trapped still under the rubble, all rescue efforts halted until the federal agents had removed file cabinets from the building. Roberts speculates that the cabinets contained the files of the Mena drug running operation that many believe involved Arkansas governor Bill Clinton, and that President Clinton and Janet Reno didn't want these files to see the light of day. For an official explanation of the case that relies solely on McVeigh's statement that unexploded bombs remained in the building is a conundrum. If there were unexploded bombs remaining in the building, how could it be that McVeigh was the lone wolf perpetrator? It reminded me of General Benton Partin, a US Air Force explosive expert, who produced a detailed report proving that the Murrah building blew up from the inside out, not from the outside in. Of course, by the time Gen. Partin got his study completed, the fix was in, and there was to be no challenge to, or reconsidering of, the official cover story. Roberts doesn't know who did the bombing or why. All he knows is that leads were not followed and the case was solved by Washington and not by an investigation. Just like the assassination of JFK. Just like the assassination of RFK. Just like the assassination of Martin Luther King. Just like 9/11. Just like Saddam Hussein's "weapons of mass destruction." Just like Iranian nukes. Just like the "Gulf of Tonkin." Just like Gaddafi and Libya. Just like Assad's "use of chemical weapons." Just like . . . It is endless, isn't it?

"The author is a former US Marine Vietnam veteran, and also was a police officer and helicopter pilot with the Tulsa Police Department. He also was an Investigator requested by the FBI following the Oklahoma City Bombing to assist in the investigation. He is the author or co-author of over 14 books. For those who never believed or accepted the confusing and often times conflicting US Government explanations for the JFK Assassination, the Ruby Ridge and Waco debacles, along with that of the Twin Towers/Pentagon Attacks, the Flight 800 TWA missile hit, and the Oklahoma Bombing, this is a "must read." Author Craig Roberts produced an encyclopedic book that should become an American classic, that is, when studying or trying to understand the involvement, chicanery, and outright participation by a number of our better known lettered agencies, who were involved in most of the above incidents. These included some of our

unresolved historical disasters and other questionable events. It is not just the seemingly endless lists of names, dates, places of individuals and suspects, but also the confusing involvement and interference and interdiction between those in the various government agencies like the CIA, DEA, DIA, FBI, and even within our armed forces such as the Black OPS operators within the Green Berets and other Special Operations groups. If they allowed the choice I would rate this book with 6 gold stars! . Maj. Frank Stolz, USMC Ret.

Colonel Craig Roberts is the most meticulous of investigative authors and researchers. He dissects the horrific Oklahoma City Bombing in detail.... detail which has NEVER been presented to the public by the "Media" or our government. The Medusa File II should be required reading in EVERY high school history course and for EVERY citizen of our country. As Craig Roberts reveals in his accumulation of evidence : there were people and organizations who benefitted from the mass murder event which occurred on that fateful day. Craig Roberts methodical presentation of facts that the "media" and government have tried to deep six paints a very different mosaic of what REALLY happened as opposed to the propaganda shoved down the throats by both the "media" and government officials. It is an excellent read but a very disturbing reality is exposed by the meticulous research performed by Colonel Roberts. in summary: MUST READ!

As a retired Police Homicide Detective, I am very impressed with the extensive amount of work Mr. Roberts put into this investigation. To my mind, he has clearly made his point. I would recommend this book to anyone who desires a more comprehensive understanding of what really happened that fateful day in Oklahoma City. After reading this I'm convinced of the need to reopen the case and impanel a Federal Grand Jury to view the evidence.

Craig got to know things the rest of us were not supposed to know--OUTSTANDING analysis of OK C bombing and Feds part in it

Perhaps a better account of what really happened in OKC & why.....allegedly there was a large cache of government documents in the building relating to Mena, Arkansas & Iran-Contra. Food for thought.....

I love it.

Well researched book.
