I use this series for both of my kids (6 & 8). Sadly it stops at EtC 8, but we have been very happy with the process the series takes the kids through. My daughter has dyslexia and it was a bit rough in the beginning, but have seen great strides as we are now n EtC 2.5. There are 1/2 books between the main books to help with transitions if necessary. My son didn't need them, but my daughter did. Great to have the choice so there is no unnecessary boredom or if needing an extra stepping stone.

This is a great series for homeachooling. My kids can't wait to bust these books open everyday.

My kids really enjoy this series of books and book 8 is no different. The only sad thing is that it is the

last in the series. Challenging enough and enjoyable for my 6th grader.

Love these easy to use workbooks

Love all of the Explode the Code...I don't use this one as much as the others because my students are generally much lower.

My daughter loves these books and has done them all. We both wish there were more beyond book 8.

Kids love this. It's fun and really straight forward in its teaching method. Phonics is key to good reading skills.

useful and so helpful to students
