Essentials Of Physical Anthropology

Synopsis

Bestselling ESSENTIALS OF PHYSICAL ANTHROPOLOGY, 10th Edition, presents a concise and authoritative introduction to physical anthropology with the goal of helping students understand the science behind human evolution and how humans are biologically connected to all life forms. These biological connections link our species with our ancient ancestors, our contemporary primate cousins, and show how closely modern human populations are related to each other. The text emphasizes this theme of biological connections as well as the connections between chapters in the material presented. This framework will help students grasp the big picture of human evolution and better navigate the material.

Book Information

Paperback: 445 pages

Publisher: Wadsworth Publishing; 10 edition (March 2, 2016)

Language: English

ISBN-10: 1305633814

ISBN-13: 978-1305633810

Product Dimensions: 10.7 x 8.5 x 0.9 inches

Learning objectives focus your attention on key concepts At the start of every chapter, learning objectives (linked to the main chapter headings) and a short chapter outline provide a preview of the upcoming content. **Looking at everyday life issues** The text highlights big picture evolutionary changes, such as trends, characteristics, and patterns, and relates material dealing with genetics, disease, and environmental and cultural issues to everyday life. **Enhance your experience with graphic reviews** Highly visual graphic reviews of fossil finds identify each major fossil group, the region where it was found, and its evolutionary significance. **Understand complex scientific material using a visual format** Numerous charts and diagrams summarize key information

throughout the text, making it easier to understand complex scientific material using a visual format.

"This textbook is the best on the market. The well-written current material is accessible. The appendices are a bonus to which I refer often." "It has a good balance of technical content and engaging examples."

Robert Jurmain received an A.B. in Anthropology from UCLA and a Ph.D. in Biological Anthropology from Harvard. He taught at San Jose State University from 1975 to 2004 and is now professor emeritus. During his teaching career, he taught courses in all major branches of physical anthropology, including osteology and human evolution, with the greatest concentration in general education teaching for introductory students. His research interests are skeletal biology of humans and non-human primates, paleopathology, and paleoanthropology. In addition to his three textbooks, which together have appeared in 35 editions, he is the author of *STORIES FROM THE SKELETON: BEHAVIORAL RECONSTRUCTION IN HUMAN OSTEOLOGY* (1999, Gordon Breach Publishers), as well as numerous articles in research journals. Lynn Kilgore earned her Ph.D. from the University of Colorado, Boulder, where she now holds an affiliate faculty position. Her primary research interests are osteology and paleopathology. She has taught numerous undergraduate and graduate courses in human osteology, primate behavior, human heredity and evolution, and general

physical anthropology. Her research focuses on developmental defects as well as on disease and trauma in human and great ape skeletons. Wenda Trevathan is regents' professor, emerita, of anthropology at New Mexico State University, where she taught from 1983 to 2009. She is a biological anthropologist whose research focuses on the evolutionary and biocultural factors underlying human reproduction, including childbirth, maternal behavior, sexuality, and menopause. Her primary publications include works on the evolution of childbirth and evolutionary medicine. Her recent books include *ANCIENT BODIES, MODERN LIVES: HOW EVOLUTION HAS SHAPED WOMEN'S HEALTH* (2010, Oxford University Press) and *COSTLY AND CUTE: HELPLESS INFANTS AND HUMAN EVOLUTION* (2016, SAR/UNM Press). She is also the Editor in Chief of the *INTERNATIONAL ENCYCLOPEDIA OF BIOLOGICAL ANTHROPOLOGY*, which will be published by John Wiley and Sons in 2018. She has taught courses in physical anthropology, nutritional anthropology, medical anthropology, evolutionary medicine, and anthropology of reproduction. Eric Bartelink received a B.S. in Anthropology from Central Michigan University (1995), an M.A. in Anthropology at California State University, Chico (2001), and a Ph.D. in Anthropology from Texas A&M University (2006). He has taught for eleven years at California State University, Chico, where he is currently a Full Professor and Director of the Human Identification Laboratory. He teaches courses in introductory physical anthropology, human osteology, human growth and development, human origins, bioarchaeology, forensic anthropology, and statistics. His research interests focus on the bioarchaeology of Native California, dietary reconstruction using stable isotope analysis, and applications within forensic anthropology. He is a co-author on *ESSENTIALS OF PHYSICAL ANTHROPOLOGY* (10e, Cengage Learning), *FORENSIC ANTHROPOLOGY: CURRENT METHODS AND PRACTICE* (2014, Academic/Elsevier Press), and has authored and co-authored numerous articles in scientific journals.

Again, this is a required textbook for my son's college class. He took anthropology because he thought it was "cool". Taking "cool" classes will not get you a job. It will ensure you live with your mother until you are well into your 30's.

Well I got the "instructors edition" so that was confusing. But it still works for school purposes so all is well!

Not bad

Excellent condition!
