Disappointing format. Format provides bits and pieces of information in a chapter - never the complete concept at one time. For example, the "I, you, and he/she" forms of a verbs are given in the same chart for three different verbs rather than giving a complete verb with all the forms. A much better organized publication, although it does not cover as much, is Marcel Danesi's (same author) "Learn Italian the Fast and Fun Way." Great graphics, plenty of practice exercises, and straightforward presentation of grammar.

So far I have been using this book for an Italian course I am taking. I have been very please so far with this text book and feel it lays everything out well when learning the language. So far, I'm very please with it.

Does not give concentrated practice in a skill... instead a little bit here, a little bit there, a little more later, etc. Prefer by far the well-organized Living Language 3 book + CDs set.

Great and easy to follow book. Am using in conjunction w/ lessons at local library, and app "duolingo". Great combo. Book is a workbook for learning and writing, complete w/ fun crossword puzzles, maps, and cultural aspects. Well done!

Great book, makes learning Italian easy and fun. The book is great because its easy enough to understand to the point where you could just study from the book and not have a teacher. I went to rome after reading parts of the book and had a great time

I am taking an adult education Italian course at a local community college and this book has been very helpful. I will continue to use it after the course.

The course book is for an Italian I class and we'll continue using it for Italian II. Seems fine to me. I'm learning the material and it seems to be presented well. The material presents situations that you would use in Italy and so more helpful than just memorizing grammar.

I needed this book for an Italian class I am taking. Although it was not supposed to have any writing in it, it did. But, it was no big deal and was sure to be easily missed. I received it just in time for my second class and paid a lot less than my fellow students! Thanks so much!
