## Customer Reviews

This is vital information for those honest enough with themselves to recognize the risks and threats in their world. The research info is there and the details are so helpful in understanding something so easily radicalized. This faith has brought more woe, bloodlust, hopelessness, destruction, and soul-crushing to the world than anything else, and it's a good thing to know why.

I must begin by stating I am so sick of the OVER inflated pressure of being PC that this book was refreshing on that level alone. Now, to the meat. This book is truth. Truth needed more now than EVER! We ARE in a war on MANY levels AND you can not fight a war on ANY level without knowing who your enemy IS, what he believes, And how he thinks. Glenn has written an imperative.

A great review of the book, "It IS About Islam" by Glenn Beck. Beck is an incredible writer, drawing

on his charisma and passion for the subject to craft a well-researched book. This review captures his argument concisely and lets you draw your own conclusions about the subject. Instaread breaks down the book into 9 key takeaways, which are easy to digest. This review provides an excellent service, helping me to better follow Beck's argument. I would highly recommend this review to anyone interested in international affairs. Beck's argument about Middle Eastern diplomacy poses questions we all should ask ourselves

An excellent alternative to the more commonly known Spark notes. I personally use Instaread to stay current with mainstream books. This particular review was very well put together. The introductory summary gives a 10,000 foot view of the entire piece "It IS About Islam." I liked that I could quickly gather the main arguments of the work within a few short paragraphs. Instaread follows up the summary with a synopsis of characters, as well as a more involved analysis of the key points of Beck's book. Overall a good read and a very useful and easy to follow analysis of the book. Two thumbs up!

Not really a Glenn Beck fan but, after hearing a lot about this book I decided to buy the summary to get me a little insight without having to purchase the book. It was great! I love these instaread summaries precisely for that. It has a detailed analysis of the main points of the book and it has convinced me into actually purchasing the real book. There is so much more than meets the eye to any religion, and Islam just like Christianity is so misunderstood and taken out of context. We all need to educate ourselves on the origins, philosophy and context of these religions.

I thought this would be written by Glenn Beck. Disappointed to discover that it is exactly what it says it is. A "summary" Re... and left a lot to be desired.

Good summary of the full book, which I also read. If you don't have time to read the entire book, this definitely clearly outlines the main points.

What a waste of money.
