Customer Reviews

Book Details:Format: PaperbackPublication Date: 3/1/2009Pages: 128Reading Level: Age 12 and Up

This little book is written quite clearly and comprehensively. Although targeted for younger readers, it can serve as an excellent introduction to the life of Hannibal and the course of The Punic Wars for university students as well. The narrative provides adequate background information to indicate why Hannibal made his epic march up through Spain, over the Alps, and down into Italy to confront the armies of Rome in some of the greatest battles of antiquity. After completing this book, a student will have an informed appreciation of Hannibal's military genius, and The Roman Republic's heroic resolution in the face of what may well have been its greatest challenge. Recommended without reservation.

The book provides a good overview of the life of Hannibal for kids. I read this book with my nine

year son and he quite enjoyed it. The style is quite accesible to young readers. While the book had some minor errors and left out of some good Hannibal anecdotes (for example, the second time that Hannibal met Scipio), it is well worth it for children interested in ancient history.

just finish reading it well writhing

Wonderful book. My son used this for National History Day and his project was amazing thanks to this book.

Wanted to learn more about this portion of history without reading about ever incident in his life. Very short and to the point. Outstanding for high schoolers or every one interested in Tyrants and Lunatics.

A wonderful in depth review of a GREAT leader and his tragic ending. Would buy as gift for friends and family.

The book was in great shape when I received it. Intriguing historical figure.

It was a very good book i learned so much and it was also very short and once again it was good
