The Best Bread Machine Cookbook Ever

Synopsis

A loaf of bread, a bread machine, and you. Whether you have just purchased a new bread machine or have been using one for some time, you're in for a treat. Because *The Best Bread Machine Cookbook Ever* offers 150 foolproof recipes for the best-tasting breads ever. All the easy-to-follow recipes were developed specifically for electric bread machines by professional baker Madge Rosenberg, who loves the ease and surefire success the machines give to every home baker. These loaves are guaranteed to taste as good as they look. Ideas cover the entire culinary world of bread baking, from Simple Sourdough and Granola Raisin Bread to Swedish Limpa and Salt-free Tuscan Bread. Tips for all current machine models are included, along with helpful information on ingredients, easy how-to, problem-solving advice, and the best recipes ever for all the basics plus creative ideas such as Rosemary-Whole Wheat Bread, Orange Cinnamon Oatmeal Bread, Walnut and Apricot White Bread, and Provencal Olive and Thyme Bread.

Customer Reviews

For the growing number of cooks who want to make the most of their bread machines, this next book in the bread machine book series contains 200 recipes for delicious and different breads from all over the world. Featuring the same creative packaging as our 365 Ways series. --This text refers to an out of print or unavailable edition of this title.

Madge Rosenberg, owner of Bakery Soutine, a top-rated New York bakery that supplies many of the best restaurants and gourmet shops in Manhattan, has been developing creative ideas for the oven

for more than twenty years.

Great book but pages are missing. If the book was totally in tact, I would give it a 5. I sent a message to the vendor but I need to contact and I am having a problem finding out where I can send an email. Maybe they will catch this review and contact me. This was the email I sent to the vendor. "On a recommendation, I had ordered two 'The Best Bread Machine Cookbook Ever' books from you in Sept 2016. The book I have been using is complete. Today I was talking with my aunt regarding recipes from this book and I grabbed the other book by mistake. I noticed that it was short pages 57 - 88. It also has doubles of pages 89 - 120. The incomplete book was to be a birthday gift for a family member. I'm glad I caught it before giving it to him. How can I remedy this?" I did learn a lesson...check out the number of pages ;)

Every recipe I have tried so far has turned out great! I had some major doubts that my bread machine would produce such great bread. Thanks to this cookbook and one bread making lesson from my friend who recommended the book, I am baking bread like a pro.

The recipes look interesting, but I have not tried them yet.

It is OK, just not what I needed

while every other bread machine cookbook gets pushed to the far corners of the bookcase. Every recipe a winner. You just can't miss with this one.

As advertised. Happy to recommend...

I have had tremendous success with this book and the other ones in the series. I don't know if the recipes are just well-suited to my National/Panasonic machine or what, but I have NEVER had a failed recipe in the batch. Granted, the author always suggests to add ingredients in the order that is recommended by your machine, so I suppose a good working knowledge of your bread machine is a must. I highly recommend this book.

Many bread machine recipes produce very light, too fluffy (Wonder Bread like) breads. This book tells you how to make really interesting, well textured breads easily in your machine. Even my son

(who is very committed to white bread) likes the semolina sesame & whole wheat granola varieties. While the book contains some recipes that seem too complicated (you need to scald milk first) or too sweet (lemonade bread), there are many easy & tasty varieties.
