Customer Reviews

This book was very helpful for reviewing certain aspects of the Spanish language. As long as you do each drill slowly and methodically in addition to the practice tests, you will succeed. I got one point above the score I needed to get 8 credits at the University of Arizona. Be warned: This book comes with an access code for REA study center. In the description, it says that you get two free practice tests and a free MP3 download for listening. You DO NOT get the MP3 download. If you need listening practice, go to <https://www.laits.utexas.edu/spe/index.html>. It was very helpful for me.

I am writing this review on behalf of my boyfriend who used only this text for clep review. My boyfriend is a native Spanish speaker and passed with a high enough score to earn 8 credits of Spanish. The only complaint is that the brand new copy's online access code did not work. But he just chatted online with REA, told them what happened and they provided access. No biggie. Another complaint my boyfriend had after using this text was that the online test allows you to pause and play the audio version. This is not accurate on the actual test. You cannot pause and hit play on the test. You must hear the audio and answer within 10 seconds. So beware of this when taking the online practice tests. Using the practice tests, it predicated that he would score in the mid 70s (High enough to Clep out of 5 Semesters of Spanish). On the actual test he got a 60 (Very disappointing). He says the biggest problem was the audio portion. Hope that helps! Happy Clepping!

It says that it comes with an online practice test, but when I tried to redeem my code, it redeemed for a sociology class. I reached out to customer service via the book's website multiple times and never had it corrected. I got a 59 on my CLEP, but I credit Duolingo and Reddit, not this book.

Can't comment on the information inside but the practice test are good, I think even harder than the actual CLEP test. Spainsh is my first lenguage, Bought this book after reading online from spanish speaking people that the test was hard. I did the practice test and score a 93. Did the CLEP Stest on April 7th and score 78, not bad for someone who always failed Spanish in high school.

Bought it for my wife who was taking the Spanish clep. As she speaks spanish at about 70%

proficiency, she needed to brush up. She studied about 3 days and did very well on the test. According to her, most of the questions were similar to those in the practice sections of this book.

Not sure why so many people had issues getting the online practice tests to work. It worked perfectly for me. The practice test were pretty hard for me not being a native Spanish speaker. I am self teaching for college credit. Hopefully this will make a difference in my score!

I just want to refresh my memory on my Spanish grammar After reviewing this book. two week later went and pass the test with high score.

My daughter used this text and the online practice tests to practice for the actual exam. She scored 72 on the first practice test and 64 on the second one. She studied a minimal amount before taking the College Board CLEP Spanish at a testing center nearby. She used blank paper provided by the testing center and wrote a ton of notes during the listening portion. She scored 70 on the real exam. She thought the listening portion on the real CLEP was easier than the practice tests and the reading was more difficult than the practice exams. Spanish is her first language and English is her second but all her formal education has been in English.
