Grade Level: 3 - 5

Customer Reviews

Love it. I am working on the last 10 pictures as quickly as possible. I am going to give them to my great nephew so that he can do a show and tell in his class at school. He's only 5 and is so excited I copied & colored them on white stock card trimmed the edges then put them on assorted colored stock then in sheet protectors and in a notebook. His presentation will be wonderful. The pictures are beautiful. He gets to keep the book that I colored for him and the book to color himself, he can hardly wait. The smile on his face and the excitement about doing this presentation in front of his classmates is well worth the hours of time I have invested in it. My only complaint is that there is a picture on both sides of the page. so using certain art supplies such as markers or water color in the book is out of the question, both of these will bleed through.

This is a lovely book from Dover; I have long since colored my own copy and bought this one for a

friend. Usual quality of Dover paper--best with colored pencils, I think--and the pictures are on both sides of the page. The drawings are excellent!

The pictures in the book are very nice and there are also pictures on the covers of what the flowers and birds look like in color as a guide. There is even a bonus page with the eagle and rose picture from the cover. The downside is that the pictures are back-to-back sheets rather than stand alone ones, which means if you like turning the pictures into presents for friends as I do you're going to have to make a copy of the reverse side. Otherwise it looks like a good pasttime.

This is an excellent coloring for either adults or childrenMy pre-school niece is happily coloring away
love having pictures of the flowers and birds of each state

Excellent for those who love Nature and want to learn about our State Birds & Flowers. Showed it to a friend and she ordered one too. You can't go wrong with these Dover coloring books.

Dover coloring books are just great, I have purchased dozens of these for my grand children and the quality and detail are just fabulous. I have been do a little traveling and learning more about birds, wild life and national land marks had become a hobby. So I started buying these because of all the information on the bottom of the pages. The books have helped a lot in recognizing bird, tree, flower and wild lie species, I highly recommend them to anyone.

I'm a big fan of Dover coloring books. This one did not disappoint. Beautiful illustrations of birds and flowers with lots of details. You could spend many, many hours with this coloring book if you wanted to take advantage of all of the detailed coloring areas. Many days of coloring (if not weeks!) I don't know where else you get that much entertainment value for under \$4! Always fun to learn a few things in the process. The paper is good quality (clean white), not cheap newsprint that so many coloring books use. There are small colored examples on the inside covers of each of the illustrations so that you can learn what each bird and flower "should" look like-so that you can get the education out of the way and then get wild with your own creativity.
