These are excellent tactics, giving the student many different perspectives in their search for a solution.” “What the book strives to provide are instructions on how to focus on the ideas presented and then how to turn those focused responses into written results. The concepts posed are realistic and the authors take great pains to make sure the examples the students are given are positive influences on how the students think and respond in writing.” “I love it, it helped me with the real test. Highly recommended, very useful, well organized, a lot of new vocabulary in each essay.” “Excellent book, helped me a lot with my English composition. I would entirely recommend this book. Really clean and great writing process”

I bought this for myself and i had no problem with the Quant section of the GRE and verbal prep was not bad either. I didn't know anything about the Analytical writing section as I had kept the prep for this section towards the end. Glad I made this purchase, now I feel much more confident than I was a week ago. One more week for my real test, hope to see a 5 atleast in the GRE.

This is an excellent book for GRE Analytical Writing exams. I found this book to be very comprehensive about all aspects of Analytical Writing. In terms of example essays: there are some very good and well written essays, but at the same time I felt there were some first-person essays that I could have improved upon. Overall, it gives you good idea about different types of writing styles and essays that are needed for passing the GRE Analytical Writing.

I couldn't ask for anything better! There are many reasons to like this book, 1) has tons of solved essays, 2) every essay is a part of the ETS official prep list, 3) lots of essay prep tips, tricks & strategies, 4) GRE exam insights in brief. Can't ask for more at that price! 5 stars all the way!

This book was a great buy, a must-read for all GRE test takers. The content in the book was useful, thought provoking, and I have several ideas to work with now. In addition, the content is presented well too. I found very few books that focus on the GRE writing section; and of those, I prefer this book.

Nice book with all the required and important content, good overall package, worth the price for GRE preparation! Must buy

5 gold stars!

The author has done a fantastic job. The elaborate explanation of each topic helped me immensely, I could gather my thoughts, streamline them and put them into appropriate words. Highly recommended .

For someone who is not good at reasoning and arguing like me, this book is a big help. I'm not a native speaker, so there are several helpful phrases and ideas that I can learn from this book.
