I Miss You: A First Look At Death

Synopsis

When a close friend or family member dies, it can be difficult for children to express their feelings. This book helps boys and girls understand that death is a natural complement to life, and that grief and a sense of loss are normal feelings for them to have following a loved one's death. Titles in this sensitively presented series explore the dynamics of various relationships experienced by children of preschool through early school age. Kids are encouraged to understand personal feelings and social problems as a first step in dealing with them. Written by psychotherapist and counselor Pat Thomas, these books promote positive interaction among children, parents, and teachers. The story lines are simple and direct—easily accessible to younger children. There are full-color illustrations on every page.

Customer Reviews

Pat Thomas is a psychotherapist, journalist and mother. After working as a journalist and broadcaster in the USA, she now works in the field of women's health and child development and writes for publications such as The Guardian Company Magazine and Practical Parenting. Her book 'MY Bees: My Family's Changing' was the winner of The English 4-11 Awards. --This text refers to

an out of print or unavailable edition of this title.

Dealing with loss is not easy for an adult, much less a child. The colorful illustrations and real life application truly helps. We discovered this title along with two more that really assisted my two year old; over thirteen years ago; to understand during the time we lost her father. I could not recommend this more!

For those who are working with children or parents. This is a must to help guide both parties on a path to healthy grieving. The simplicity of the book makes it easy to hold discussions with both children and parents and allows children to relate or not relate easily. The artistry of the moments are well suited for both readers. This is a must for any therapist, counselor.

I bought this for my granddaughter after we lost her Grandpa. I think it will be very helpful to her. It has a good message to help ease children through the death of a loved one.

This book helped me explain to my 6 year old daughter about death. Her grandmother was dying of cancer and I found books being the best way to explain death, heaven and missing somebody who passed to her.

Great book for a child who has lost someone close to them at a younger age. We bought this for my 4 year old and it has really helped him through it.

Good book, and in good condition as was stated in the description. Used for children's grief library.

I purchased this book for a friend who lost her husband. They had a little girl and she told me this book was the only thing her daughter was able to understand about her daddy being gone. Highly recommend it.

I bought this for my little brothers after our dad passed away. I expected it to be helpful to them but was so impressed with the simplicity of the book and its explanations that I think it truly helped me cope with my grief just as much as it did for my (very much younger at 6 and 8 years old) brothers. I'm actually ordering another copy to keep for myself and share with my 10 year old son since he was also having a tough time grieving his grandfather's passing.
