Understanding Remedies

Synopsis

This comprehensive Understanding treatise provides an introduction to the basic legal rules and principles that constitute the law of remedies as applied by United States courts. The chapters are organized so that the materials follow the customary approach of teaching remedies:(1) Â General principles applicable to damages, injunctions, and restitution;(2) Â Remedy defenses;(3) Â Applications, e.g., bodily injury remedies, breach of contract remedies;(4) Â Special problems, e.g., punitive damages, attorneys' fees. The materials are comprehensive and respect the nuance and subtlety of the subject. Understanding Remedies presents the richness of the topic to students who wish to gain both a fundamental appreciation of the subject and an insight into the myriad ways remedies influence the shape and dimension of modern American law. This eBook features links to Lexis Advance for further legal research options

Customer Reviews

THE RIGHT BOOK WAS RECEIVED.

not linked to my casebook, but very in depth for the understanding series; sometimes the comprehensiveness makes it hard to locate topics i need help understanding in a timely fashion.

too much extraneous material in the text

Excellent remedies book.

Very heavy legal substance, thorough research, great book to get to know remedies from the inside out. The fashion of presenting ideas could be more precise and clear. The logical relationship between certain concepts could be easier to follow with some good transitions.

Makes the complicated task of understanding Remedies more understandable and straight forward. All of the LexisNexis "Understanding" books are great supplements.

Very, very thorough and easy to follow. Great resource for law students taking the Bar and for practicing attorneys.
