Belly Button Book (Boynton On Board)

Synopsis

Featuring a beachful of bare-bellied hippos—including one tiny baby who can only say “Bee Bo”—the Belly Button Book is a quirky addition to the phenomenally successful Boynton on Board series. Every page captivates with Sandra Boynton’s inimitable illustrations and joyful rhyming text: Soon after dark, upon the beach, we sing a hippo song, and if you’re feeling in the mood, we hope you’ll sing along: “Belly Belly Button, you’re oh so fine. Ooo, Belly Button, I’m so happy you’re mine.” Shiny and sturdy, and featuring a great (navel-shaped, naturally) die-cut cover, the Belly Button Book provides enduring, giggly, read-aloud fun.

Hoping for hippos? Take a look! They’re in this BELLY BUTTON BOOK!

Sandra Boynton is a popular American cartoonist, writer, and songwriter. Since 1974, Boynton has written and illustrated over fifty children’s books and seven general audience books, including five New York Times bestsellers. More than 60 million of her books have been

sold“mostly to friends and family,” she says. She has also written and produced five albums of award-winning children’s music. Three of her albums have been certified Gold, and Philadelphia Chickens, nominated for a Grammy, has gone Platinum. She lives with her family on a farm in New England.

We own about 5 of Sandra Boynton’s board books - my 2 1/2 year old can’t get enough! They are nice for parents to read too because they aren’t super wordy or long which makes for a great bedtime story when you get the "one more book please"! This particular book (belly button) isn’t one of my personal favorites but it’s cute and my daughter thinks "bee-bo" is hilarious. These are great gifts for small children (1 year old) or toddlers. We plan to get more for our home library and give as gifts.

This is one of my sons favorite books! We have read it so many times I decided to get it for my friends new baby.

Cute book that my 2 year old enjoys. He was curious about belly buttons when I bought this

Love this book!! A must have for any family with children!

Such a cute story! My kids love to read the "bee-bo" book. I’d recommend this to anyone with little kids!

We received a copy of this as a baby shower gift for our first child, with a few other Boynton books. That child is now 7 years old, and we had to replace the book after losing it in a move, because it is our all-time favorite Boynton book. We have four children from ages 3 - 7, and they all love it!

I love this author. Belly buttons are the best.

Such a cute book and our son LOVES it!
